

is proud to announce...

Foam Recycling

as our 4th stream available in Jefferson and Belmont Counties

This is in addition to our already 3 streams of recycling services:

- Cardboard

- Comingle

- Glass

What Can Be Collected?

What Can't Be Collected?

Drop Off Locations

- St. Clairsville (old Fairgrounds)
- St. Clairsville (331)
- Barnesville (Harmony)

**AND MORE
LOCATIONS TO
COME!**

What Happens Next?

Once 90lbs of styrofoam is collected, it is compacted into a sheet of recycled foam

Bins vs Bags

Pros

Reasonable Price > \$3,000

Locate permanently or move around community

Lightweight bags - 20lbs easy to transport to hub

Very Inexpensive

Easy to set up and accessible

Staff monitors and picks up bins

Smaller amount to transport

Monitor contamination closely

Cons

Need to monitor and swap out once filled

Could get contaminated or unacceptable items when in remote unstaffed location

Need to control contamination

FOAMCYCLE

Education

Promote program both locally and regionally

Collection

Volunteer at community collection events

Transport

Offer to transport foam

Funding

Funded by JBG

Thanks for Your Time!
