Grant Committee Photo

A photo of the grant committee was taken for the Herald Star and The Times Leader.

Cameras

The cameras shipped and will arrive this week. Mr. Bianconi, Mrs. Petrella, and Mr. Darby Copeland are all working together on this project and by next meeting will let everyone know where the two cameras are located.

Earthquake Insurance

Mrs. Petrella checked in with our insurance company regarding special insurance for the building because of fracking across the street at the Belmont office. We have earth movement insurance in both Belmont and Jefferson County.

New Front Loader – Belmont

Mrs. Petrella has started to investigate a new Autocar front loader for Belmont County. The existing truck is a 2013 Peterbilt with almost 200,000 miles on it and in the last two months has had major repairs. In Jefferson, they have a 2013 rear-packer Peterbilt that is starting to have the same issues.

The rear loader is usually \$160,000 and the front loader is \$250,000. Mr. McVey suggested replacing both. Jefferson just got 2 trucks in 2018 and a spare last year that is shared between both counties. They discussed possibly replacing the pick-up trucks in the next year.

LEO information

With Scott being absent from the meeting, Mrs. Petrella asked to wait to discuss until next month board meeting. All agreed that the special meeting with Mr. Tharp and Deputy Newman last month was greatly beneficial and much appreciated in aiding to make a plan moving forward. Mr. Bauer previously suggested for them to present their program to aid in developing a similar program. Mrs. Petrella expressed the importance of coming to an agreement that would see all departments have equality and accountability, be fair to all parties involved, and to show that we promote litter enforcement. Her hope is that the board can come to reach an amicable agreement regarding the Litter Enforcement Officer in both counties.

GRANTS/SPECIAL EVENTS COMMITTEE REPORT: Mike Bianconi

Mr. Bianconi referred to hand out given at meeting showing the 9 remaining grant applications. Belco Works fixed their paperwork and thus the committee agreed to grant in the amount of \$3,196.50. St Johns Academy will now receive a community grant for \$1,000. The remaining applications were denied because they did not have the supporting documentation to show they were purchasing recycled products. For next year, the committee will consult additional authorities for suggestions on verbiage for grants to prevent from having to deny applications. Mr. Mucci suggested checking with the Government Policy Committee and Mr. Bauer, our attorney, to reinforce rules. He believes applicants are stretching rules to qualify and that we need to have a clearer vision on what does and does not qualify for grant money.

A motion to approve two remaining grants for Belco Works and St. Johns Academy by Mr. Mucci and seconded by Mr. Henry. **VOTE: Unanimous, Yea, by roll call. Motion passed.**
